# CERTIFICATION RESULT OVERVIEW

Test: Development Consultant NW04 - WAS  
Date: 04.10.2006  
Candidate: Marcin Zduniak  
ID: 0003827454

The table below shows a detailed breakdown of your results for the certification test which you recently participated in.

Each test topic contains a number of questions in the test based on the topic weighting (please refer to certification description at [www.sap.com/education](http://www.sap.com/education)). Your score for each individual test topic has been calculated as a percentage.

Please note: The maximum number of points per topic varies according to weighting. This makes it impossible to calculate an average across topics using percentage points. Calculating the average across topics using percentage points does not accurately reflect the overall result.

Use this table to identify the areas in which you demonstrated less than the required level of knowledge in the test. We recommend additional training in the test topics
